

SUPPORTING YOUR NDIS AND ENTERAL FEEDING JOURNEY FROM HOSPITAL TO HOME

**A simple guide on how NDIS participants can order and access
Abbott products, pumps and our Homecare Connect Nursing Service**

Abbott offers a range of products to support your NDIS journey

We have developed a range of products to help you or your loved one to achieve your nutritional requirements via oral or enteral feeding. These products include:

FreeGo® pump and stand

A safe, simple and easy to use pump that provides accurate and controlled enteral feeding. FreeGo pumps and stands are currently provided free of charge on loan for participants using an Abbott feed.*

*Please ask your dietitian or distributor to contact your local Abbott Homecare Connect Nurse Educator to facilitate the supply of the FreeGo pump and stand. Our Homecare Connect Nurse is also able to provide training on how to use the pump.

Giving® sets and Enfit® syringes

Designed to safely transfer enteral feeds from the bottle to the participant's feeding tube.

Ready-to-Hang feeds and/or oral nutritional supplements

Abbott offers a range of enteral feeds and oral nutritional supplements to help support you or your loved one's individual nutritional requirements.

FreeGo® backpack

The FreeGo backpack allows you to conveniently transport the FreeGo pump to support mobile participants in maintaining engagement in everyday activities.

No matter how you choose to manage your NDIS plan, you can purchase Abbott products through a registered NDIS provider. Some examples include but are not limited to HECSA, Joya, Independence Australia and Brightsky Australia.

We are here to help

Our Abbott Homecare Connect service is supported by a team of experienced Clinical Nurse Educators who provide education and training for participants, families, carers, schools and kindergartens in both regional and metro areas. Please ask your dietitian to refer you to this service.
